New for 2019!

Two new income tax credits have been added to Schedule 38-TC for 2019—see lines 18 and 19.

A new alternative simplified method for calculating the research expense credit is available starting in 2019—see instructions to line 9.

General instructions

If a fiduciary claims an income tax credit (other than the credit for income tax paid to another state or local jurisdiction), Schedule 38-TC must be completed and attached to Form 38.

Supporting documentation. If the instructions do not specify an officially-prescribed schedule for a particular credit, a fiduciary must attach documentation to support eligibility for the credit and to show how the credit was calculated, including the use of an unused credit carried over from another tax year. In the case of a credit received from an estate, trust, partnership, S corporation, or a limited liability company treated like a partnership or S corporation, attach a copy of the North Dakota Schedule K-1.

Property Tax Clearance

North Dakota Century Code § 57-01-15.1 provides that, before certain state tax incentives may be claimed, a taxpayer must obtain a property tax clearance record from each North Dakota county in which the taxpayer holds a 50 percent or more ownership interest in real property. The property tax clearance record(s) must be attached to the North Dakota tax return on which the incentive is claimed. Certain credits on this schedule are subject to this requirement. The credits subject to this requirement are identified in the box at the top of page 1 of Schedule 38-TC.

If a fiduciary is claiming any of the specified credits, the fiduciary must complete the property tax clearance section at the top of page 1 of Schedule 38-TC. If required to attach a property tax clearance

record from a county, obtain it by using the form Property Tax Clearance Record, which is available on the Office of State Tax Commissioner's website.

Disclosure notification

Upon written request from the chairman of a North Dakota legislative standing committee or Legislative Management, the law requires the Office of State Tax Commissioner to disclose the amount of any deduction or credit claimed on a tax return. Any other confidential information, such as a taxpayer's name or social security number, may not be disclosed.

Specific line instructions

On lines 1 through 19, enter the total credit earned or received by the estate or trust on the applicable line, regardless of whether a portion of the credit is allocated to a beneficiary. If a portion of any credit is allocated to a beneficiary, report the allocated amount on Schedule 38-TC, page 2, line 21b.

Line 1 - Renaissance zone credit

Enter on this line credits allowed under the North Dakota Renaissance Zone Program. For more information, see the Renaissance Zone Act Tax Incentives Guideline and Schedule RZ. **Attach Schedule RZ.**

Line 2 - Ag commodity processing facility investment credit

If the estate or trust made a qualified investment in a business certified for the agricultural commodity processing facility investment credit program, enter the allowable credit on this line.

The credit is equal to 30% of the total qualified investments made directly to a certified business during the 2019 tax year. Include on this line an agricultural commodity processing facility investment credit from a North Dakota Schedule K-1. Also include on this line an unused credit carried over from a prior tax year—see "Unused credit carryover from a prior tax year" below.

If the estate or trust is unable to use all of a credit based on investments made during the 2019 tax year, the estate or trust may carry the unused credit amount over to subsequent years' returns for up to 10 tax years.

Unused credit carryover from a prior tax year. The amount of an unused credit based on investments made in the 2004 tax year that may be used in a subsequent year is limited to the smaller of (1) the unused credit carried over from the 2004 tax year, (2) 50% of the total credit allowed on the initial investment made in the 2004 tax year, (3) \$3,000, or (4) 50% of the tax liability before credits on the 2019 return.

Note for certain 2004 investments: Do not include on this line an unused credit based on an investment made in the 2004 tax year if it is attributable to the 2004 retroactive relief credit legislation passed by the 2005 North Dakota Legislature.

Any unused credits based on investments made in tax years 2005 through 2008 are no longer allowed and may not be claimed on the 2019 tax return.

Unused credits based on investments made in tax years 2009 through 2018 are allowed on the 2019 return, subject to the annual and lifetime limitations—see below.

Annual limit. Of the total credits available for use on the 2019 return, including unused credit carryovers from tax years 2009 and after, no more than \$50,000 may be used on the 2019 return.

Lifetime credit limit. A taxpayer is allowed no more than \$250,000 in credits based on investments made in tax years 2005 and after.

Attach a copy of the Ag Commodity Processing Facility Investment Reporting Form received from the certified business.

Line 3 - Seed capital investment credit

If the estate or trust made a qualified investment in a business certified for the seed capital investment credit program, enter the allowable credit on this line.

The credit is equal to 45% of the total qualified investments made directly to a certified business during the 2019 tax year. Include on this line a seed capital investment credit from a North Dakota Schedule K-1. Also include on this line an unused credit carried over from a prior tax year—see “Unused credit carryover from a prior tax year” below.

If an estate or trust is unable to use all of a credit based on investments made during the 2019 tax year, the estate or trust may carry the unused credit amount over to subsequent years’ returns for up to 4 tax years.

Unused credit carryover from a prior tax year. Any unused credits based on investments made in tax years prior to 2015 are no longer allowed and may not be claimed on the 2019 tax return.

Unused credits based on investments made in tax years 2015 through 2018 are allowed on the 2019 return, subject to the annual limitation—see below.

Annual limit. Of the total credits available for use on the 2019 return, including unused credit carryovers from tax years 2015 and after, no more than \$112,500 may be used on the 2019 return.

Attach a copy of the Qualified Seed Capital Business Investment Reporting Form received from the certified business.

Line 4 - Biodiesel or green diesel fuel blending credit

A tax credit is allowed to a North Dakota licensed fuel supplier (wholesaler) business that blends biodiesel or green diesel fuel in North Dakota with a minimum 5% blend (“B5”) meeting ASTM specifications. The credit is equal to 5 cents per gallon blended. Enter the allowable credit on this line. Include on this line a biodiesel or green diesel fuel blending credit from a North Dakota Schedule K-1. Also include on this line an unused credit carried over from tax years 2014 and after.

If a taxpayer is unable to use all of the credits based on qualified blending during the 2019 tax year, the taxpayer may carry the unused credit amount over to subsequent years’ returns for up to 5 tax years.

Line 5 - Biodiesel or green diesel fuel sales equipment credit

A tax credit is allowed to a North Dakota licensed fuel seller (retailer) of biodiesel or green diesel fuel that adapts or adds equipment to the seller’s facility in North Dakota to enable it to sell biodiesel or green diesel with a minimum 2% blend (“B2”) meeting ASTM specifications. The credit is equal to 10% of the costs to adapt or add the qualifying equipment. The credit is allowed in each of 5 tax years, starting with the tax year in which sales of the eligible fuel begin. Eligible costs incurred before the tax year in which sales of the eligible biodiesel fuel begin may be included. Enter the allowable credit on this line. Include on this line a biodiesel or green diesel fuel sales equipment credit from a North Dakota Schedule K-1. Also include on this line an unused credit carried over from tax years 2014 and after.

If a taxpayer is unable to use all of a credit based on eligible costs in a tax year, the taxpayer may carry the unused credit amount over to subsequent years’ returns for up to 5 tax years. *(This 5-year unused credit carryover period applies to each of the 5 tax years in which the credit is allowed.)*

Lifetime credit limit. No more than \$50,000 in total tax credits is allowed for eligible costs incurred in all tax years.

Line 6 - Employer internship program credit

A tax credit is allowed based on compensation paid to an eligible college student hired as an intern under a qualifying internship program set up in North Dakota. The credit is equal to 10% of the compensation paid during the tax year. The credit is allowed for up to 5 eligible interns in a tax year. The intern must be enrolled in an institution of higher

education or vocational technical education program in a major field of study closely related to the work to be performed and must be supervised and evaluated by the employer. The internship must qualify for academic credit.

Lifetime credit limit. No more than \$3,000 in total tax credits is allowed for eligible wages paid in all tax years.

Line 6a. Enter the allowable credit on this line. Include on this line an employer internship program credit from a North Dakota Schedule K-1.

Line 6b. Enter the number of eligible interns hired during the 2019 tax year. *Disregard this line if the credit is from a North Dakota Schedule K-1.*

Line 6c. Enter on this line the total amount of wages, salaries, or other compensation paid to eligible interns hired during the 2019 tax year (as shown on their 2019 Form W-2s). *Disregard this line if the credit is from a North Dakota Schedule K-1.*

Line 7 - Research expense credit

A tax credit is allowed for conducting qualified research activity in North Dakota. The credit is allowed on the excess of qualified research expenses over a base amount. The terms “qualified research expenses” and “base amount” have the same meanings as those defined under Internal Revenue Code § 41, except that they do not include research activity or sales outside North Dakota. The credit is equal to a percentage of the excess of North Dakota qualified research expenses incurred during the tax year over the North Dakota base amount for the tax year. On the first \$100,000 of excess North Dakota qualified research expenses, the percentage is 25%. On excess North Dakota qualified research expenses over \$100,000, the percentage is 8%.

Alternative simplified method. For tax years beginning on or after January 1, 2019, a taxpayer may elect to use an alternative simplified method to calculate the credit on North Dakota qualified research expenses. This election may be

made regardless of the method used to calculate the federal research credit. A taxpayer may choose between the regular method and the alternative simplified method each tax year, and the method used for a tax year is binding for that tax year. If the alternative simplified method is elected, the North Dakota research credit is equal to the sum of the following amounts:

- 17.5% of the first \$100,000 of North Dakota alternative excess research and development expenses for the year.
- 5.6% of the North Dakota alternative excess research and development expenses in excess of \$100,000 for the year.

“North Dakota alternative excess research and development expenses” means the amount by which qualified research expenses incurred in North Dakota exceed 50% of the average qualified research expenses incurred in North Dakota for the three tax years preceding the tax year for which the credit is being determined.

If a taxpayer has zero qualified research expenses in any of the three preceding tax years, the credit is equal to 7.5% of the first \$100,000 of qualified research expenses plus 2.4% of qualified research expenses in excess of \$100,000.

Unused credit carryover. If a taxpayer is unable to use all of the credits based on qualified research expenses incurred during the 2019 tax year, the taxpayer must carry the unused credit amount back to the 3 previous tax years’ returns and then forward to subsequent years’ returns for up to 15 tax years. The unused credit must be carried back to the earliest tax year first, and then to each succeeding tax year.

Election to sell, assign, or transfer unused credit. If a taxpayer obtains certification as a qualified research and development company, the taxpayer may elect to sell, assign, or transfer unused credits to another taxpayer. For the conditions and procedures, including the reporting requirements, see N.D.C.C. § 57-38-30.5. Application for certification must be made to the North Dakota Commerce Department’s Division of Economic Development and Finance (EDF).

Line 7a. Enter the allowable credit on this line. Include on this line a research credit from a North Dakota Schedule K-1. Also include on this line an unused credit carried over from a prior tax year. *Do not include on this line any research credit obtained from another taxpayer through a sale, assignment, or transfer in 2019—report this amount on line 7b.*

Line 7b. Enter on this line a research credit obtained from a qualified research and development company through a sale, assignment, or transfer in 2019.

Line 8 - Angel fund investment credit carryover

Important! This line is only for an unused credit attributable to investments made in angel funds organized and certified before July 1, 2017.

Lifetime credit limit. For investments made in angel funds on or after January 1, 2013, and before July 1, 2017, a taxpayer is allowed no more than \$500,000 in total credits attributable to the taxpayer’s own investments and any credits the taxpayer received from a partnership, S corporation, or other passthrough entity that invested in an angel fund.

Line 8a. Enter on this line an unused credit carried over from tax years 2012 and after. *Do not include on this line an unused credit carried over from a prior tax year that was obtained from another taxpayer through a sale, assignment, or transfer made in tax year 2012—report this amount on line 8b.*

Line 8b. Enter on this line an unused credit carried over from a prior tax year that was obtained from another taxpayer through a qualifying sale, assignment, or transfer made in tax year 2012.

Line 9 - Workforce recruitment credit

A tax credit is allowed to an employer for using extraordinary recruitment methods to recruit and hire employees for hard-to-fill positions in North Dakota. The credit is equal to 5% of the compensation paid during the first 12 consecutive months

to the employee hired to fill a hard-to-fill position. The credit is allowed in the first tax year following the tax year in which the employee completes the 12th consecutive month of employment.

To be eligible for the credit, the employer must pay an annual salary that is at least 125% of North Dakota’s average wage as published by Job Service North Dakota and must have employed all of the following recruitment methods for at least 6 months to fill a position for which the credit is claimed:

1. Contracted with a professional recruiter for a fee.
2. Advertised in a professional trade journal, magazine, or other publication directed at a particular trade or profession.
3. Provided employment information on a website for a fee.
4. Offered to pay a signing bonus, moving expenses, or non-typical fringe benefits.

The employer must provide a statement to the employee hired to fill the hard-to-fill position containing the following:

1. Name of employer.
2. Federal employer identification number of employer.
3. Statement that employer qualifies for the workforce recruitment credit based on the employee’s employment.
4. Amount of signing bonus, moving expense, or non-typical fringe benefit payment.
5. Statement that the payment of the bonus, moving expenses, or fringe benefit may be deductible on the employee’s North Dakota income tax return.

If a taxpayer is unable to use all of a credit first allowed in the 2019 tax year, the taxpayer may carry the unused credit amount over to subsequent years’ returns for up to 5 tax years.

Line 9a. Enter the allowable credit on this line. Include on this line a workforce recruitment credit from a North Dakota Schedule K-1. Also include an unused credit carried over from tax years 2014 and after.

Line 9b. Enter the number of eligible employees whose first 12 months of employment ended within the 2018 tax year. *Disregard this line if the credit is from a North Dakota Schedule K-1.*

Line 9c. For the eligible employees included on line 9b, enter the total compensation paid during the first 12 consecutive months of employment. *Disregard this line if the credit is from a North Dakota Schedule K-1.*

Line 10 - Geothermal energy device credit

Complete this line only if (1) a qualifying geothermal energy device was installed on or after January 1, 2009, and before January 1, 2015, (2) part or all of the allowable credit was retained by the estate or trust, and (3) the estate or trust is carrying an unused credit attributable to the installation over to the 2019 tax year.

Line 11 - Credit for wages paid to a mobilized employee

Enter on this line the credit allowed for continued payment of compensation to an employee who is a member of the National Guard or Reserve while the employee is mobilized for federal active military duty during the tax year. Include on this line a credit for wages paid to a mobilized employee from a North Dakota Schedule K-1. For more information, see Schedule ME. **Attach Schedule ME.**

Line 12 - Endowment fund credit

A tax credit is allowed for making a contribution to a qualified endowment fund. For more information, see Schedule QEC (for filers of Forms 38, 40, 58, and 60). **Attach Schedule QEC.**

Note: If the estate or trust is carrying over an unused endowment fund credit from a prior tax year, enter it on the 2019 Schedule QEC, line 6.

Lines 12a and 12b. Enter on these lines the applicable amounts from Schedule QEC.

Lines 12c and 12d. Enter on these lines an endowment credit and the related contribution amount shown on a North Dakota Schedule K-1 received from a partnership, S corporation, estate, or trust.

Line 13 - Housing incentive fund credit carryover

Enter on this line an unused housing incentive fund credit carried over from tax years 2011 through 2016.

Line 14 - Automation credit carryover

Important! This line only applies to the automation income tax credit program that was in effect for tax years 2013 through 2017.

Enter on this line an unused automation credit attributable to qualifying purchases made in the 2014 through 2017 tax years. Do not include on this line any unused automation credit attributable to qualifying purchases made in the 2013 tax year.

See the instructions to line 18 for information on the automation income tax credit program in effect for tax years 2019 through 2022.

Lines 15 through 17 - Nonprofit private school tax credits

Tax credits are allowed for making charitable contributions to qualifying nonprofit private primary schools, high schools, and colleges located in North Dakota. A separate credit is allowed for each of the three categories of school—primary school, high school, and college. For each category of school, the credit equals 50% of the contributions made to all eligible schools within the category.

For a list of the eligible schools within each of the three categories of schools, see the table on page 6 of these instructions.

For an estate or trust, the rules that apply depend on whether the estate or trust acquires the credit by making a direct contribution to a qualifying school or by holding an interest in a passthrough entity

that contributed to a qualifying school. A passthrough entity means an estate, trust, partnership, S corporation, or a limited liability company treated like a partnership or S corporation.

Acquisition of credit by making a direct contribution. If an estate or trust acquires a credit by making a direct contribution to a qualifying school, the entire credit must be allocated to its beneficiaries. Report each beneficiary's share of the allocated credit on the beneficiary's North Dakota Schedule K-1.

To qualify, a contribution must be made directly to, or specifically designated for the exclusive use of, a qualifying school.

School network or organization. If a contribution is made payable to the account or fund of a school network or organization that governs or benefits multiple schools, the contribution will qualify only if the estate or trust specifically designates it for the use of a qualifying school, and the network or organization separately accounts for the funds on behalf of that school. The estate or trust must obtain a statement from the network or organization that identifies the qualifying school and the amount contributed to it. If the qualifying school falls into both the primary and high school categories, also see the next paragraph.

Schools in both primary and high school categories. If a contribution is made to a qualifying school that provides education in one or more grades in both the primary school category (kindergarten through 8th grades) and the high school category (9th through 12th grades), a separate credit is allowed for the portion of the contribution designated for use within each school category. The estate or trust must obtain a statement from the qualifying school or the school network or organization that identifies the qualifying school and shows the amount contributed within each category of school. If the estate or trust does not obtain a statement, one-half of the total contribution will be deemed to have been made to each category of school.

Election. An estate or trust may elect, on a contribution by contribution basis, to treat a contribution as having been made during the 2019 tax year if it is made on or before the due date, including extensions, for filing the 2019 Form 38. If this election is made for any contribution, attach a statement to the return containing the following:

1. A statement indicating that the election is being made.
2. Name of qualifying school.
3. Date of contribution.
4. Amount of contribution.

Acquisition of credit by holding an interest in a passthrough entity. If an estate or trust acquires a credit by holding an interest in a passthrough entity, the rules that apply depend on whether the estate or trust retains the credit or allocates the credit to its beneficiaries. In the case of a credit received from a passthrough entity, an estate or trust may retain part or all of the credit. If the estate or trust allocates any part of the credit to its beneficiaries, report each beneficiary's share of the allocated credit on the beneficiary's North Dakota Schedule K-1. If the estate or trust retains any part of the credit, the amount of the credit that the estate or trust may claim is limited to the lesser of the following amounts:

- The amount of the credit retained by the estate or trust.
- 25% of the tax on Form 38, page 1, line 1.
- \$2,500.

Completing lines 15 through 17. Enter the credit for each school category on the applicable line. Include both the portion allocated to the beneficiaries and the portion retained by the estate or trust. In the case of a credit received from a passthrough entity (on North Dakota Schedule K-1) that is retained by the estate or trust, only include the amount of the credit allowed after applying the limitations.

Line 18
Automation tax credit

Important! This line only applies to the automation income tax credit program in effect for the 2019 through 2022 tax years.

If the estate or trust qualified for the automation tax credit under N.D.C.C. § 57-38-01.36, enter on this line the amount of the credit shown on the credit approval letter issued to the estate or trust by the North Dakota Office of State Tax Commissioner. Include on this line an automation credit from a North Dakota Schedule K-1. The unused portion of a 2019 credit may be carried over to subsequent years' returns for up to 5 tax years.

Line 19
Credit for hiring an individual with a developmental disability or mental illness

A tax credit is available for employing an individual with a developmental disability or mental illness. To qualify, an employer must apply for and obtain certification from the North Dakota Department of Human Services, Vocational Rehabilitation Division, that the individual has a severe disability, is eligible for the agency's services, and requires customized employment to become employed. The credit is equal to 25% of the wages paid to the individual during the tax year, up to a maximum credit of \$1,500 per eligible employee. Include on this line a developmentally disabled/mentally ill employee credit from a North Dakota Schedule K-1. The total credit amount, including any credit from a North Dakota Schedule K-1, that a taxpayer may claim in a tax year may not exceed 50% of the taxpayer's tax liability before credits. **Attach a copy of the certification letter from Human Services. A copy of the letter is not required if the credit is from a North Dakota Schedule K-1.**

**Qualified nonprofit private schools
