2023 Schedule ND-1FA

SFN 28727 (12-2023), Page 2

 Caution: If you (and your spouse, if filing jointly) are full-year residents, the tax on line 23 above may be higher than the tax calculated without the use of this schedule.

If you are required to use Schedule ND-1NR, the tax on line 23 above is not your actual tax liability. You must enter the tax from line 23 of this schedule on your 2023 Schedule ND-1NR, line 22, and complete the remainder of Schedule ND-1NR to calculate your actual tax liability. Please note that the tax calculated based on the use of Schedule ND-1FA may be higher than the tax calculated without it.

Attach this schedule to your Form ND-1 only if you are choosing to pay the tax based on its use.

General instructions

Eligibility

You are eligible to use the 2023 Schedule ND-1FA to calculate your tax for 2023 if you used Schedule J (Form 1040) to calculate your 2023 federal income tax.

The use of Schedule ND-1FA is elective. You do not have to use it even though you used Schedule J (Form 1040) to calculate your federal income tax for 2023.

IMPORTANT: It is possible for the tax calculated using Schedule ND-1FA to be higher than the tax calculated on all of your income using the regular method (without Schedule ND-1FA). Complete and attach Schedule ND-1FA to your Form ND-1 **only if** you are electing to pay the tax that results from using Schedule ND-1FA.

Copies of base period returns

You will need copies of your 2020, 2021, and 2022 North Dakota income tax returns to complete the 2023 Schedule ND-1FA. If you do not have a copy of any of these returns, see the back cover of the 2023 Form ND-1 instruction booklet for information on how to obtain one.

If you filed an amended North Dakota income tax return, or if the Office of State Tax Commissioner made changes to your North Dakota income tax return for 2020, 2021, or 2022, you must use the corrected amounts when completing Schedule ND-1FA.

Specific line instructions

Line 2

Enter your elected farm income from the 2023 Schedule J (Form 1040), line 2a. However, if you claimed an exclusion on line 6 of your 2023 Form ND-1 attributable to a net longterm capital gain included in your federal elected farm income, subtract that portion of the exclusion from your federal elected farm income and enter the result on this line.

Lines 5, 9, and 13

For purposes of completing lines 5, 9, and 13 of the 2023 Schedule ND-1FA, your North Dakota taxable income may be a negative number. If your North Dakota taxable income for a base year is mathematically less than zero, use the negative number for purposes of completing these lines.

No filing requirement for base

year. If you were not required to file a North Dakota income tax return for one or more of the base years, you must complete the applicable North Dakota return for each base year for which a return was not filed. Complete the return through the line on which the tax is calculated. Use the figures from the return completed for the base year to complete the applicable lines of the 2023 Schedule ND-1FA.

If you used Form ND-1 or Form ND-EZ for the 2020 tax year, use these tax rate schedules to calculate the tax to enter on line 8. Use the schedule that corresponds to your filing status for the 2020 tax year.
