Materials Subject to Use Tax

Materials and items which are used or consumed in the process of manufacturing artificial limbs are subject to tax. If the materials become an integral part of the final product, they are exempt from use tax since they are part of a product which is ultimately sold at retail.

When purchasing items for final use from suppliers who hold a North Dakota sales and use tax permit, sales tax should be paid directly to the supplier. If the items are purchased from a supplier who did not collect North Dakota sales or use tax, the purchaser should include the cost of the purchases on the Items Subject to Use Tax line of the North Dakota sales and use tax return and remit the use tax directly to the North Dakota Office of State Tax Commissioner.
