

NORTH DAKOTA

Brian Kroshus, Tax Commissioner

DATES AND PROCEDURES FOR THE ASSESSMENT OF REAL PROPERTY

Valuation And Listing of Real Property

All real property subject to taxation is listed and is assessed according to its valuation on February 1 of each year. [See North Dakota Century Code (N.D.C.C.) § 57-02-11]

In a separate list, the Assessor must describe, list and value all real property exempt from taxation, except for property of the United States, the State of North Dakota, a political subdivision of the State of North Dakota, or farm buildings or farm residences exempt from property taxes by law. [See N.D.C.C. § 57-02-14]

In the valuation of exempt properties, the Assessor must designate the properties exempted by local discretion or charitable status. This means property exempt from taxation as new or expanded businesses under N.D.C.C. Ch. 40-57.1; improvements to commercial and certain residential property in N.D.C.C. Ch. 57-02.2; buildings belonging to institutions of public charity, new single-family residential, townhouse, or condominium property, property used for early childhood services, or pollution abatement improvements under N.D.C.C. § 57-02-08.

Assessors Receive Assessment Books

By the second Wednesday in February of each year, the County Auditor furnishes the assessment books and forms necessary to complete the assessment of real property to all the Assessors. [See N.D.C.C. § 57-02-31]

The assessment list sets out all tracts of real property subject to taxation, the name(s) of the owner(s), the number of acres, and the lots and parts of lots or blocks included in each description.

Duties of Assessors N.D.C.C. § 57-02-34

Assessors complete their assessment duties during the 12-month period preceding April 1 of each year. Assessors should physically inspect properties in their jurisdictions.

Generally taxable buildings, structures, and improvements, even if owned by someone other than the landowner, must be assessed with the land on which they are located. See exceptions in N.D.C.C. § 57-02-26.

The Assessor is responsible for determining the true and full value of each tract of real property subject to taxation and all taxable improvements and structures located on it. Those values are entered into separate columns opposite the description of the property. The Assessor must also set out the assessed value of each property. Each class of property---agricultural, residential and commercial---is listed separately.

Residential property - true and full value of each lot or tract, true and full value of all structures on each lot or tract, total true and full value of the property, 50% of total true and full value, total taxable value (9% of assessed value).

Commercial property - true and full value of each lot or tract, true and full value of all structures on each lot or tract, total true and full value of the property, 50% of total true and full value, total taxable value (10% of assessed value). Commercial property includes all vacant lots and all property that does not qualify as agricultural, residential, centrally assessed, or exempt.

Total taxable value before homestead credit and disabled veterans' credit - sum of agricultural, residential and commercial taxable values.

Homestead credit allowance - a reduction on the taxable valuation of the homestead of a qualifying individual as set out in N.D.C.C. § 57-02-08.1.

Disabled veterans' credit allowance - a reduction on the taxable valuation of the homestead of a qualifying disabled veteran as set out in N.D.C.C. § 57-02-08.8.

Total taxable value after homestead credit and disabled veterans' credit - the valuation remaining after the deduction of any homestead credit or disabled veterans' allowance.

Notice of Real Estate Assessment

A written notice of assessment shall be sent out showing the amount of the true and full value of each parcel of taxable property for both the current year and the previous year. These notices need to include:

- a. The full and accurate value of the taxable property (including any improvements) as determined by the Assessor for both the current and previous year.
- b. The date, time, and place set by law for the local board of equalization meeting in the district where the property is located, as well as the details for the County Board of Equalization meeting.

Notice of Equalization Meetings to be Published

Each year the County Auditor shall publish in the official county newspaper for two successive weeks, a notice that proceedings for the equalization of assessments will be held by the several local equalization boards and for the proceedings of the County Board of Equalization. The notice of the local equalization boards may not be more than 45 days before the date of the equalization proceedings and the second publication may not be less than 14 days before the equalization proceedings. The notice must contain a statement that the proceedings will be held at the regular meeting place of the governing board or other place designated by that board of the township or city, as the case may be.

The notice of the county equalization board may not be earlier than May 1 and the second publication may not be later than May 20, however, the second notice must be published more than 10 days prior to the date of the meeting. The notice must contain the date, time, and location of the meeting. Both publications must also contain a statement that each taxpayer has the right to appear before the appropriate board of review or equalization and petition for correction of the taxpayer's assessment. The equalization proceedings in a city must be held within the first 15 days of April and the equalization proceedings in an organized township must be held in the month of April. [See N.D.C.C. §§ 57-02-51 and 57-02-52]

The primary responsibility for a fair distribution of the tax burden rests with the Assessors and local boards of equalization.

***Township Board of Equalization**

The Township Board of Equalization consists of the members of the Township Board of Supervisors. The board meets annually within the month of April at its usual meeting place. At least 10 days before the meeting, the township clerk posts a notice at the usual meeting place and publishes a notice in the official newspaper of the township. The notice must state the meeting time and date. [See N.D.C.C. Ch. 57-09]

It is the duty of the Township Board of Equalization to determine whether or not all taxable property has been properly listed and valued by the Assessor. If any real property has been omitted, the board is responsible for listing the property on the assessment list at its true and full value. It is also the duty of the board to correct any assessment which is not listed at its true and full value.

All complaints and grievances of residents of the township must be heard and decided by the board. Complaints by nonresidents must be heard and determined by the County Board of Equalization. [See N.D.C.C. § 57-09-04]

Errors in valuation made by the Assessor that are not corrected at the local level are difficult to correct later. Therefore, the board should thoroughly examine the assessment list and carefully equalize assessments.

The Township Board of Equalization must complete the equalization process within 10 days.

***City Board of Equalization**

The City Board of Equalization consists of the members of the governing body. The board meets at its usual meeting place within the first 15 days of April each year to equalize and correct the assessment list submitted by the Assessor. If a person is the Assessor for two or more cities or townships, the City Auditor, after consulting with the Assessor, sets an alternate date in April for the equalization meeting. At least 10 days before the alternate meeting, the City Auditor posts a notice at the usual meeting place and publishes a notice in the official newspaper of the city. The notice must state the meeting time and date. [See N.D.C.C. Ch. 57-11]

The board may increase or decrease the valuation and assessment to whatever is reasonable and just to ensure equalization.

Any errors in valuation made by the Assessor should be corrected at the local level. Errors not corrected at the local level are difficult to correct later. Errors which are not corrected may result in unfairness and inequity in taxation.

***County Board of Equalization**

The County Board of Equalization consists of the members of the Board of County Commissioners and meets within the first 10 days in June to review and equalize assessments. The Chairman of each city and Township Board of Equalization, or the Chairman's appointed representative, and each city and township Assessor must attend. Assessments of property equalized by the City Boards of Equalization are reviewed first, followed by the assessments of property equalized by the Township Boards of Equalization. [See N.D.C.C. Ch. 57-12]

The County Board of Equalization, acting as the Township Board of Equalization, equalizes assessments of unorganized territory within the county.

Prior to the meeting in June, the board provides for spot checks upon property within the county to verify the accuracy of the real property listings and valuations.

The County Board of Equalization, after notice of the Local Board of Equalization, may increase the assessment on any separate piece or parcel of real property, even though such property was assessed in a city or township having a Local Board of Equalization.

The County Board of Equalization does not have authority to add omitted property to the assessment list. The County Auditor adds omitted property according to N.D.C.C. §§ 57-14-01 through 57-14-07.

The county board should complete equalization of individual parcels and assessment districts. Any existing inequities will not be corrected by a percentage change for a class of property ordered by the State Board of Equalization.

State Board of Equalization

The State Board of Equalization consists of the governor as Chairman, State Treasurer, State Auditor, Commissioner of Agriculture, and Tax Commissioner. The Tax Commissioner is secretary of the State Board of Equalization. [See N.D.C.C. Ch. 57-13]

The State Board of Equalization meets annually on the first Tuesday in July at the Office of State Tax Commissioner to hear testimony and to consider assessments of all taxable property subject to assessment by the State Board of Equalization.

The State Board of Equalization meets annually on the second Tuesday in August at the State Capitol. The board examines, compares, and equalizes assessments of locally assessed property to provide for uniform and equal assessments at the true and full value of similar taxable property throughout the state, as required by law.

The State Board is responsible for equalizing assessments of real property among assessment districts of the same county and among the different counties of the state. The board may increase or decrease assessments in any assessment district and any county in which it determines the assessments are too low or high.

The State Board shall equalize the classification and taxable status of real property in any assessment district in which the board determines the classification or taxable status is incorrect or inequitable.

The State Board shall provide for reviews of selected properties, parcels, or lots within each county.

The State Board may order a new assessment of any class of property or of all the property located within any political subdivision.

The State Board of Equalization may not approve valuation and assessment in any taxing district in which the true and full value for residential and commercial property exceeds the true and full value as determined by the sales ratio study.

NORTH DAKOTA

Brian Kroshus, Tax Commissioner

DATES AND PROCEDURES FOR THE ASSESSMENT OF REAL PROPERTY

If a taxpayer or representative has appealed an individual assessment, personally or by mail, the State Board may change the assessment if it is established that the taxpayer first appealed the issue to the Local and County Equalization Boards. A property owner who is a nonresident of an organized township or whose property is located in an unorganized township or whose property has been included in a new assessment is required to appeal only to the County Board of Equalization. [See N.D.C.C. §§ 57-09-04, 57-12-02 and 57-14-08.] If the State Board believes an assessment on any individual property is too low, it may increase the assessment.

The Office of State Tax Commissioner certifies to each County Auditor the abstract of the proceedings of the State Board of Equalization and specifies the changes necessary to equalize valuations of each class of real property in the county. The proceedings of the State Board of Equalization are published online at tax.nd.gov.
