While an interior inspection of the property is not required, interior reviews may affect the consideration of value. If denied an interior review, we will assess from the exterior only. Staff will not be allowed to enter the property without the owner or a representative present.
- 5.) Generally, by the first Thursday of October, the property tax division staff will present their findings to the State Board of Equalization with a recommendation. The board deliberates and votes. You can attend this meeting; however, public comments are not accepted.

Mayor Jaimie opened up the meeting and gave the floor to LaJuana.

LaJuana handed a booklet out to some residents, some had to share.

Sales are looked at as a whole throughout the whole county and not just by city. Real Estate sales are much higher than valuations. Valuations are sale driven. Values start with cost but then must be adjusted to market conditions. The entire county saw a New Manual Cost Adjustment. (That together with the market adjustment and depreciation got the county to 88.20%.)

2024 assessed values and the 2024 sales were ten percent higher than last year.

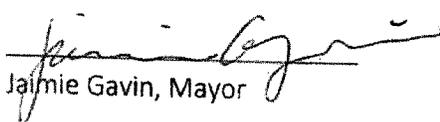

Gwinner was at 96% median ratio after the cost adjustment. COD: Coefficients of Dispersion was at 52.42%, a good COD is 15-25. PRD: Price Related Differential is one. Gwinner was at 1.3 for 2024. This shows the lower end homes are carrying the tax burden. There was much discussion and questions asked to LaJuana.

No Real Estate Exemptions were listed, so none to approve.

Ten Homestead credits and six Veteran credits were approved (Auston/ Michelle)

City Council Recommendations: Equalization Book not approved, as is. Mayor Jaimie requested that the City of Gwinner get reassessed by having Vanguard come back as soon as possible. (Auston/Bryton)

Meeting was adjourned at 7:22pm. Next city council meeting is on April 21st at 5pm.

Jaimie Gavin, Mayor

Jessica Peterson, City Auditor

RE: SARGENT COUNTY APPEAL – PARCEL 31-9679000

Dear Members of the State Board of Equalization:

Hope Ciesynski purchased this parcel October 24, 2024, for \$175,000.00. At that time the value of the parcel was \$220,900.00. An appraisal was completed October 2, 2024, with an opinion of value of \$190,000.00. Michelle Ciesynski, Hope's mother, indicates discrepancies in the residence between the county information and the appraisal. A property inspection form was completed by Hope Ciesynski and returned this office. It was explained that our office would be out to inspect the home this summer.

Thank you.

An increase in assessment may mean that your property taxes on the parcel will increase. Assessment increase notice to property owner

1. a. When any assessor has increased the true and full valuation of any lot or tract of land including any improvements to an amount that is an increase of three thousand dollars or more and ten percent or more from the amount of the previous year's assessment, the assessor shall deliver written notice of the amount of increase and the amount of the previous year's assessment to the property owner at the expense of the assessment district for which the assessor is employed. Delivery of written notice to a property owner under this subdivision must be completed at least fifteen days before the meeting of the local board of equalization.
- b. If written notice by the assessor was not required under subdivision a and action by the township, city, or county board of equalization or order of the state board of equalization has increased the true and full valuation of any lot or tract of land and improvements to an amount that results in a cumulative increase of three thousand dollars or more and ten percent or more from the amount of the previous year's assessment, written notice of the amount of increase and the amount of the previous year's assessment must be delivered to the property owner. The written notice under this subdivision must be mailed or delivered at the expense of the township, city, or county that made the assessment increase or at the expense of the township, city, or county that was ordered to make the increase by the state board of equalization. Delivery of written notice to a property owner under this subdivision must be completed within fifteen days after the meeting of the township, city, or county board of equalization that made or ordered the assessment increase and within thirty days after the meeting of the state board of equalization, if the state board of equalization ordered the assessment increase.
- c. The tax commissioner shall prescribe suitable forms for written notices under this subsection. The written notice under a subdivision must show the true and full value of the property, including improvements, that the assessor determined for the current year and for the previous year and must also show the date prescribed by law for the meeting of the local board of equalization of the assessment district in which the property is located and the meeting date of the county board of equalization.

Limitation on increase

The board of a township, city, or county may not increase the valuation returned by the assessor to an amount that results in a cumulative increase of more than fifteen percent from the amount of the previous year's assessment without giving the owner or the owner's agent reasonable notice and opportunity to be heard regarding the intention of the board to increase it.

Township Board of Equalization

The township board of equalization consists of the members of the township board of supervisors. The board shall meet annually at its usual meeting place within the month of April. At least ten days before the meeting, the township clerk posts a notice at the usual meeting place and publishes a notice in the official newspaper of the township. The notice must state the meeting time and day in April. See N.D.C.C. § 57-09-01.

City Board of Equalization

The city board of equalization consists of the members of the city governing body. The board shall meet annually at its usual meeting place within the first fifteen days of April. However, if a person is the assessor for two or more cities or townships, the city auditor, after consulting with the assessor, sets an alternate date in April for the equalization meeting. At least ten days before the alternate meeting, the city auditor posts a notice at the usual meeting place and publishes a notice in the official newspaper of the city. The notice must state the meeting time and day in April. See N.D.C.C. § 57-11-01.

County Board of Equalization

The county board of equalization consists of the members of the county commission and meets within the first ten days of June of each year at its usual meeting place to review and equalize assessments. See N.D.C.C. §§ 57-12-01 and 57-14-08(3).

State Board of Equalization

The state board of equalization meets annually on the second Tuesday in August on the grounds of the state capitol to examine and compare the assessments of taxable property as returned by the counties in the state. The board proceeds to equalize the values so that all assessments of similar taxable property are uniform and equal throughout the state at the true and full value as required by law.

In equalizing individual assessments, the board may reduce the assessment on any separate piece or parcel of real estate if the taxpayer appealed the assessment to the board either by appearing personally or by a representative before the board or by mail or other communication to the board to explain the reasons for requesting the reduction. The board does not have the authority to reduce an assessment unless the taxpayer has first appealed the assessment to the township or city board of equalization and county board of equalization where the property was assessed. See N.D.C.C. §§ 57-13-03 and 57-13-04 and, in the case of a new assessment, § 57-14-08(6). North Dakota Century Code § 57-14-08(6) provides that the State Board of Equalization may reduce a "new" assessment if the owner first appealed to the county board of equalization (does not require going before local equalization board.)

9. A property owner may appeal the assessment, classification, and exempt status of the owner's property to the state board of equalization if the property owner was foreclosed from attending assessment proceedings because of the failure to substantially comply with the notice requirements in N.D.C.C. chs. 57-02 or 57-12, or because of an irregularity in the township, city, or county assessment proceedings.

New reassessment of property - Allowance See N.D.C.C. § 57-14-08

Upon the filing of a petition signed by not less than ten freeholders in a political subdivision, or by the governing body of that subdivision, requesting a new assessment of property in the subdivision or upon investigation by the board of county commissioners, the board of county commissioners, before October first, may order a new assessment of any class of property, or of all property, located within the subdivision or within any subdivision. The state board of equalization or the tax commissioner may order a new assessment of any class of property or all property located in any political subdivision. The new assessment and equalization must be conducted under the terms and conditions as set forth in the state board of equalization or tax commissioner's order. The local governing body responsible for performing the new assessment may petition the state board of equalization or tax commissioner for a modification of any or all of the order's terms and conditions. The state board of equalization or tax commissioner may for good cause shown grant all or part of the modification request.
